After receiving all the papers you prepare well and when you attend the process you see that you perform minimum of 5.5 (55%) out of 10 (100%) in written-test and technical interview rounds. Remaining things will be covered by me with help of my concerned people.
7. By doing all this I will be able to see that you get appointed.

PAYMENT:

Payment comes in two parts both initial and total.

INITIAL PAYMENT:

1. Initial payment will be 4000/- rs .
2. This amount should be paid only after you receive your selection process-call-letter for attending selection-process. This selection process-call-letter you will be receiving directly from company people. You will be receiving your selection process-call-letter via email and this email you will be receiving from www.accenture.com itself.
3. As I told earlier I will be sending papers for your selection-process only after this payment is being done.
4. As I mentioned above you will be receiving your call-letter directly from company people. This way you will be secured that you will be attending the process with the company. This will be the security which you can have from me.

Let me clear your doubt about why to pay the initial amount of 4000/- rs.

I mentioned clearly above about my role and my assistance. After receiving your selection process-call-letter for your selection-process. When you attend the process you need to see that you should perform up to min % required which I mentioned earlier. In any case if you fail to do so then will lose my effort and also lose one position on my behalf. By saying this I do not comment on your potential. This is towards my security.

TOTAL PAYMENT:

1. Salary package will be **4.5laks** per annum from which Monthly Gross salary will be **37.5k** and after tax deductions from the company you will be receiving monthly **33k** in your hand.
2. Total payment will be **60k**.
3. You need to pay me **60,000** after getting into company.
4. This **60,000** has to be paid in fifteen equal installments that $60,000 / 10 = 6,000$ per installment.
5. Each installment has to be paid from your respective salary which will be as follows.

From your first month salary – first installment of **6,000**

From your second month salary – second installment of **6,000**

From your third month salary – third installment of **6,000**

From your fourth month salary – fourth installment of **6,000**

From your fifth month salary – fifth installment of **6,000**

From you sixth month salary – sixth installment of **6,000**

This way up to **Ten Months**.

This way you'll be having your job security.

Now let me inform you that In the worst case if there is a failure. Yes I will carry your process towards other companies if there is failure.

First let me inform you failure can be either from your side or from my side.

YOUR SIDE: You have not performed up to min % which is required by me.

In this stage I will process your resume towards other companies for which you need not have to pay me 4000/- rs for each and every company.

FROM MY SIDE : You have performed up to or above min % required and even after that you have not been appointed with the company. This will be a failure from my side.

In this stage I would definitely return the INITIAL AMOUNT which U have paid to me. Also If you feel you can continue with me then I will be processing your resume towards other companies.

Now I hope you're clear with both payments.

TIME CONSTRAINT:

If you are ok with both payments then we should see that process is being started 1-2 days. Upon starting the process I like to see that you get maximum time for preparation so that we can have better results.

MY PERSONAL DETAILS:
